

Manager, Senior Manager, Associate Director, Berlin
(possibility to work remotely)

About ABC economics

ABC economics provides independent economic and econometric advice on competition and regulatory matters. We are expert economists and used to presenting our findings in front of competition authorities, sector regulators, courts and arbitration tribunals.

Combining scientific knowledge with intellectual rigour and sector expertise, we deliver robust, clear and effective results for our clients.

About the role

As **Manager, Senior Manager** or **Associate Director** you will be expected to work independently, demonstrate a deep understanding of the relevant concepts, and play a key role in all aspects of the project. Notably as **Senior Manager** or **Associate Director** you will be expected to lead the project as project manager bearing full responsibility for the direction of the team on a day-to-day basis. You will be directing and decisively contributing to high-level domestic and international cases dealing with matters ranging from international arbitrations, mergers and antitrust proceedings to damage quantification. You will be participating in court and arbitration hearings in meetings with regulatory bodies and competition authorities and be closely involved also in project acquisition. You will also be expected to take a leadership position in the office and support more junior staff in their development to help them thrive.

Your tasks:

- Interacting with clients
- Direction of the project team on a day-to-day basis
- Project organisation and planning
- Extensive mentoring of more junior colleagues
- Leadership on relevant economic concepts
- Ensuring the highest quality of work products
- Devising relevant empirical and theoretical approaches
- Drafting presentations, memos and reports

General prerequisites for success:

- Ability to direct and motivate project team members
- High motivation and independent, critical thinking
- An interest in theoretical and/or empirical economic work and research
- A solid track record of applying economic principles to real-world problems
- A clear and precise writing style and the proven ability to explain complex economic concepts to non-economists
- Excellent project organisational skills
- Accuracy, precision and the ability to work under pressure

Your qualifications:

- Master's degree or PhD in economics, operations research, computer science, mathematics or statistics from a leading university
- Substantial experience in competition and/or regulatory consulting and a proven track record of project management for **Manager** or **Senior Manager** position
- Additionally, a proven track record of project acquisition for **Associate Director** position
- Experience in energy economics is a plus
- Excellent command of German and English
- Excellent command of statistical software packages such as Stata
- French language skills are a plus
- Knowledge of Mathematica or other analytical software packages is a plus

We offer:

- Competitive salary
- 30 days of vacation per year
- A team of highly skilled economists and econometricians including university professors
- A wide variety of projects covering different industries
- A highly stimulating and rewarding work atmosphere
- First-hand experience in competition and regulatory matters
- An ideal environment for your professional career development
- The opportunity to apply theoretical economics and cutting-edge econometrics to actual economic problems
- Office located centrally. Ideal public transport conditions with U-Bahn and S-Bahn in less than 5 minutes walking distance
